## COMPANY PROFILE

We "Shubham Heavy Electrical Works" stepped into the market in the year **2001** and established our factory in Faridabad(Haryana, India) by **Mr. Radhe Shyam**, a true entrepreneur and an innovator, with more than 40 years of experience in field of Repair/ Rewinding and Reconditioning of HT/LT, AC/DC Electric Motors & Alternators. He have more than **40-years** of hand on experience in rewinding and repairing of HT & LT, AC & DC rotating electrical machines up to the rating of **5MW 11kV** and DC motor of up to **1500kW**. He have got his wide experience at **Evans Electric & Reunion Engg. Co., Mumbai** for more than **15 years**.

From the past **23 years**, we have gained huge prominence in offering motor repairing services such as **rewinding & repairing of HT/LT Induction motors/alternators, DC motor/alternators, AC induction motor/alternators, all types of industrial transformers, forklift motors, traction motors and all other electrical job works**. We render all these services with the continuous support of our skilled professionals who hold years of experience in this domain. Professionals working with us possess immense expertise in rendering the best quality services as per the precise needs and demands of the clients. Services that are offered by us are widely accepted in the market across the country as these are timely and accurately rendered to the clients without any flaw.

By providing these best-in-class services, we have been able to achieve a remarkable position in the market. Currently, our factory/workshop is established in **IMT, Faridabad**. Well equipped, ventilated, furnished and secure working area of **5000 Sq. Ft** & adequate open space with 24 hours security and vigilance cover for the safe custody of customers' machines & spares. We have with us **12.5 Ton capacity EOT crane, motor load trial facility, baking oven, all the latest tools and equipment**. The client-oriented approach of our organization in offering motor Repairing Services has earned us many loyal customers for a lifetime.

## Our Services

We specialize in complete rewinding, rehabilitation and overhauling of HT,LT AC/DC electric motors.

Well equipped, ventilated, furnished and secure working area of 5000 Sq. Ft & adequate open space with 24 hours security and vigilance cover for the safe custody of customers' machines & spares.

## Repairs & Rewinding Services

LT/HT, AC/DC Electric Motors, generators and Magnetic Coils

Commutator/Armature Coils/ Field & Inter pole Coils up to 11 KV

Distribution/Power Transformers, Screw and centrifugal Compressors

Fabrication of new coils of different sizes.

## Fabrication Of HV diamond shaped coils

We manufacture new HV diamond shaped coils using high quality electrolytic grade copper using class H and class F insulation. We perform rigorous testing to newly formed coils – HV testing & turn by turn testing.
