OMNIA STEELS PVT LTD

Trust us, we don't rust you.TM

ABOUT US:

- The world of **OMNIA STEELS PVT LTD** is one without boundaries – growing, changing and challenging. It is a leading trading and distribution house in various Iron, Mild steel and special steel products.
- Started in the year **1987** by “**Mr.Ganesh Gupta**” in Hyderabad (our present corporate office) has attained a reputable position in the Business sector. This is made possible by our commitment to a culture of continuous improvement, through which we drive operational excellence in processes, products and people.
- For more than three decades now we have been concentrating on the customer needs and as a result, we have successfully reached their satisfaction level owing to our dependability, durability and quality of steel requirement supplied by us.
- With great dedication, friendly team and customer support, we have **our presence (presently) in three states Chattisgarh, Andhra Pradesh and Telangana** from where we are able to easily cater projects in all over India at very competitive price.

Trust us, we don't rust you.™

Manufacturing relationships. Distributing quality.

Where do we see ourselves in near future?

MISSION:

To be world class in supplying high quality and wide range of Iron and Steel without compromising in Quality, Service, Custom and Fabrications that is chosen by our customers along with punctuality at affordable prices.

VISION:

Our vision is to raise the benchmark and become the leading source for all metal needs in the market.

GOAL:

Our goal is to fulfil all types of steel needs for every project going on in whole of India and add a helping hand in its never-ending growth.

VALUES:

We focus on new technology and innovative ideasthrough a team of dedicated professionals who value our customers, deliver on our promises and contribute to sustainable development.

Trust us, we don't rust you.™

PRODUCTS:

- Being a client-centric organization of steel, we source these quality steel from some of the well-recognized companies like SAIL, Jindal, Essar, TATA, JSW, Apollo, Vizag Steel etc.
- Our relations with manufacturers at all three locations who utilize the latest technologies for manufacturing the offered product line has helped us to maintain competitive prices for the products. They produce the products with top-grade mild steel which match with the quality standards also verified at our end before dispatching.
- We have deployed talented quality auditors for the same who check our products to ensure their excellent strength, flawlessness, prolonged service life and reliability for industrial applications. Our products are known for their excellent finish, longevity, corrosion-free, rust-free and abrasion resistance.
- We can even meet specific cutting demands and supply hard-to-find and odd sizes thanks to our excellent relationships with manufacturers and state-of-the-art machinery.

Trust us, we don't rust you.™

Why do people choose us?

- **Delivery** - Just-in-time delivery at your door providing substantial savings in the cost of storing, handling and maintaining inventories.
- **Processing Capabilities** - Our range of high precision cutting equipment yields precise, zero-defect cuts regardless of the alloy, shape or size you require. In our processing equipment you can find band saws, disc saws, stone plate saws and shears for cutting plates, sheets and long products.
- **Special Requirements** - GUPTA STEELS sources standard and odd shapes and sizes. If you need pre-cut aluminum, magnesium, stainless steel or other related alloys, we stand as your one-stop-shop source. We work with the top extrusion shops, and we are pleased to help you get the alloy you want in precisely the shape you require.
- Any confusion regarding steel requirements, do not worry! Our experienced team can help you to decide which steel section will work best for you without concentrating on the quantity, whether a commercial customer looking for large quantities of stock or a domestic customer with a much smaller requirement.

Trust us, we don't rust you.™
