HPL Electric Launches Inverter LED Lamp

T&D India May 22, 2020 0 Comment 41 Views

HPL Electric & Power Ltd has diversified its product basket in the consumer lighting segment by adding new range of lighting products with state-of-the-art design and technology.

The new products incorporate the best industry features and are made in compliance with international standards.

One new product in this range is Kasper – the inverter lamp. It is an energy-efficient LED lamp that comes with fast-charging feature. It is available in 9W rating, primarily catering to retail consumers.

Kasper is powered by a built-in lithium ion rechargeable battery (BIS approved) with a backup of up to four hours. The LED lamp is protected against over-voltage and over-charging, as well as surge protection up to 2.5kV.
