About Us

At Wood Artistry, we pride ourselves on being who we are and aspire to where we want to be. Bringing Indian sensibilities to a Global mindset that demands no less than the best in design and manufacturing. Wood Artistry is a creative, innovative, dependable and trustworthy partner in architectural design, consultancy and engineering services. Our comprehensive services have benefited corporates, real estate property developers and individuals looking for value engineered solutions. Our journey in wood artistry with nothing more than passion and commitment grounded in the professional ethics, to offer world class services to the clients. Our hands-on culture and a deep understanding of real customer needs has helped us become a trusted name in wooden industry. That is not all. We also consult, design and execute projects, collaborating with architects from an early stage to ensure the highest quality standards and most optimum solutions in architecture. we aim for being real, being natural with our clients / customer.

MISSION AND VISION

MISSION

We are committed to delivering world class interior spaces utilising the latest technological and manufacturing methods that meet the unique needs and expectations of each client.

We aim to contribute significant value to our clients, our employees and our community through sustainable development, innovation and applying global best practice.

We are guided by our values of reliability, transparency, efficiency, excellence, as well as adaptability to the ever changing market in all that we do.

VISION

WORLD-CLASS INTERIORS
THROUGH INNOVATION
AND EXCELLENCE.

Sliding Door

Sliding doors are a stylish and modern way to add extra personality to your home. Not only do they look great anywhere, you'll be enhancing the functionality of your space too.

Acoustic Movable Wall

We understand that a multi-purpose room is great value to any building. To talk about something small, to vote on something big, to present something new or to create something brand new, whatever you need from a room, the right atmosphere is key to success.

Sliding Window

The functionality of the sliding system means that it is perfect for properties that are looking to maximize their view while also maximizing space. The sliding system runs on tracks and rollers so an open window or door doesn't take up any room in the property.

Completed Projects

🔑 Labour Institute Location-
Bangalore Architect-Wood Craft
Art

We model everything in Solid works, allowing us to design every aspect before it goes into production eliminating any problems with regard to construction in the very early stages.

For the love of timber

We love the honesty of wood, its imperfections, its incessant movement years after the tree has been cut down. We want to celebrate this beautiful material in our furniture and joinery. By paring it with clean lined designs or contrasting it with colour, we allowing it to continue telling its story.
